

A **cause** is a person, event, condition or reason that is responsible for an action or effect. An **effect** is a result brought about by a cause

Read **the cause** and write **an effect**.

1. Cause: A man shouted in the mosque.

2. Cause: The Muslims raised money.

3. Cause: The children came with food to the orphan house.

4. Cause: The children sat lazy on their bedroom.

5. Cause: The mother and father told everyone to hurry to the mosque.
